Section A – Basics (Short Answers)

1. What is PPC? Explain with an example
Ans:

- **PPC (Pay-Per-Click)** is an online advertising model where advertisers pay a fee each time someone clicks on their ad.
- It is commonly used on platforms like Google Ads or Facebook Ads.
- For example, if a company runs an ad for “coffee mugs” and pays ₹10 per click, they pay only when a user clicks the ad.
- If 100 people click the ad, the total cost would be ₹1000.

2. Difference between PPC and SEO
Ans:

Aspect	PPC (Pay-Per-Click)	SEO (Search Engine Optimization)
Cost	Paid advertising (pay for each click)	Free (organic traffic, no cost per click)
Results Speed	Immediate results	Takes time to see results
Traffic Type	Paid traffic	Organic (unpaid) traffic
Duration	Stops when you stop paying	Long-lasting results
Example Platform	Google Ads, Facebook Ads	Ranking website on Google search results organically

3. What is Quality Score? Factors affecting it
Ans:
-Quality Score is a rating given by Google Ads that measures the quality and relevance of your ads, keywords, and landing pages. It usually ranges from 1 to 10 and affects your ad rank and cost per click.
Factors affecting Quality Score:

- Click-Through Rate (CTR): How often people click your ad
- Ad Relevance: How closely your ad matches the keyword
- Landing Page Experience: Quality, speed, and relevance of your page
- Keyword Relevance: How well keywords align with user search intent

4. What is CTR? Write the formula.
Ans:
CTR(Click-Through Rate) is a metric that measures the percentage of people who click on a specific link or advertisement after viewing it.
It helps measure how effective and engaging your ad is.
A higher CTR means your ad is relevant and attractive to users.

CTR Formula:
CTR = Total Clicks / Total Impressions * 100

CTR Example:
If a search ad is displayed 10,000 times (impressions) and it receives 200 clicks, the CTR is calculated as:
CTR = 200 / 10,000 * 100 = 2%

5. Why is Landing Page Quality important for PPC?
Ans:
Landing Page Quality is important for PPC because it affects user experience and ad performance.
A relevant, fast-loading, and easy-to-navigate page helps keep users engaged and encourages conversions.
Good landing page quality improves your ad's Quality Score, which can lower cost per click.
It also increases the chances of turning clicks into sales or leads.

Section B – Practical Tasks

Task 1: Keyword Research

<u>Business: Cafe</u>

10 Primary Keywords: Finding keywords using Google Keyword Planner.

Keyword (by relevance)	Avg. monthly searches	Three month change	YoY change	Competition	Ad impression share	Top of page bid (low range)	Top of page bid (high range)	Account Status
Keywords that you provided								
cafe near me	1m – 10m	0%	0%	Low	–	₹6.79	₹44.69	
best cafe in rajkot	1k – 10k	0%	0%	Low	–	–	–	
coffee shop near me	1m – 10m	0%	+900%	Low	–	₹4.31	₹40.03	
espresso coffee	10k – 100k	0%	0%	Low	–	₹0.79	₹57.03	
cold coffee	10k – 100k	0%	0%	Low	–	₹9.31	₹46.55

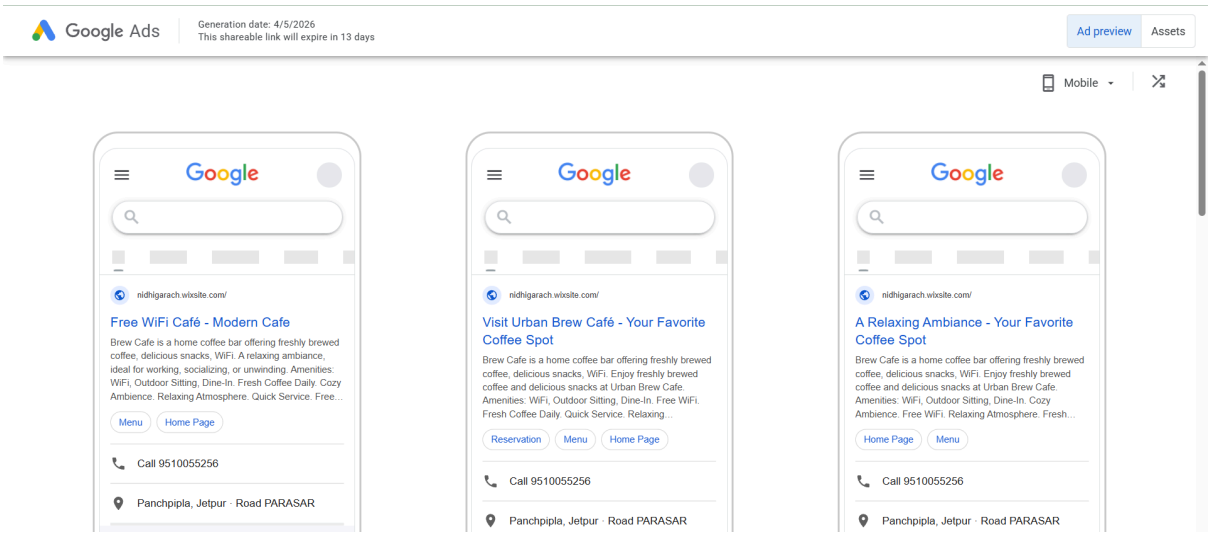
Section D – Mini Project

Complete PPC Strategy for Urban Brew Cafe:

1. Campaign Goal:

- The primary goal of this PPC campaign is to increase online visibility and drive more targeted traffic to the Urban Brew Cafe website. The campaign aims to attract potential customers who are actively searching for cafes as well as those who have an interest in coffee and dining experiences. By using Search Ads, the campaign will capture high-intent users who are likely to visit the cafe, while Display Ads will focus on building brand awareness and attracting new audiences through visually engaging content. Ultimately, the objective is to increase footfall, improve customer engagement, and promote Urban Brew Café as a preferred destination for coffee and relaxation.



2. Budget Split: Splitting ₹10,000 between search ads & display ads

Campaign Type	Budget
Search Ads	₹6,000
Display Ads	₹4,000

- Search Ads target users with high intent, as they appear when people actively search for terms like “cafe near me” or “coffee shop.” This increases the chances of getting clicks and visits on the website
- Display Ads, on the other hand, focus on brand awareness by showing visually appealing banner ads (images or videos) on websites, apps, and YouTube to people based on their interests, such as coffee or dining. Even if users are not actively searching, these ads help introduce the café to new audiences, create interest, and encourage them to visit later. Over time, this increases brand recall and attracts more potential customers.

3. Keyword Table:

Keyword	Intent
cafe near me	High
coffee shop near me	High
best cafe near me	High
coffee place near me	High
cold coffee near me	Medium
cozy cafe near me	Medium
cafe with wifi	Medium
dine in cafe near me	Medium

best coffee shop	Medium
places to dine near me	Medium
types of coffee	Low
coffee benefits	Low
how to make coffee	Low
coffee recipes	Low

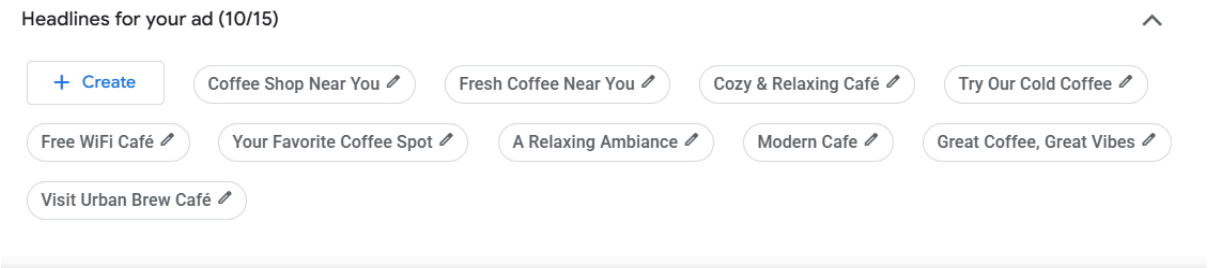
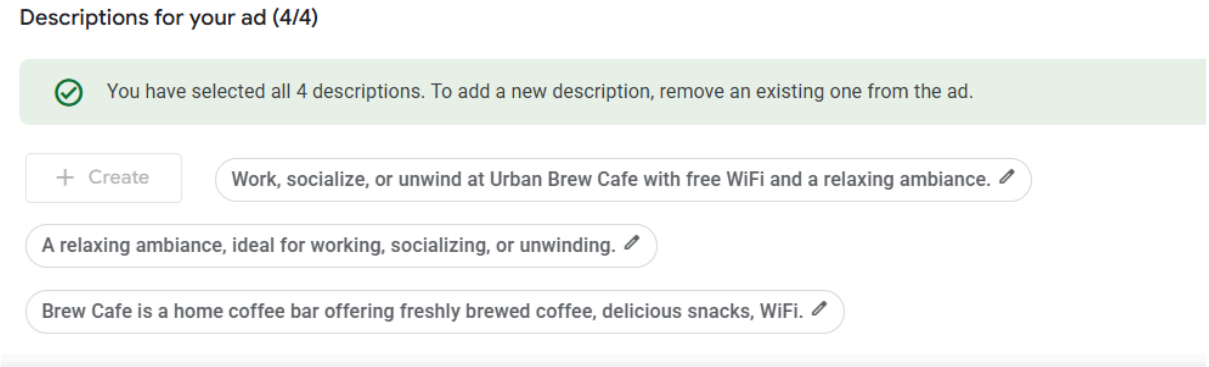
4. Search Ad Copy

Search ad copy is the text that appears in Google search results when users search for a keyword. It includes headlines and descriptions designed to attract attention and encourage users to click on the ad. A strong ad copy highlights key benefits like offers, quality, or convenience. It helps connect the user’s search intent with the business solution.

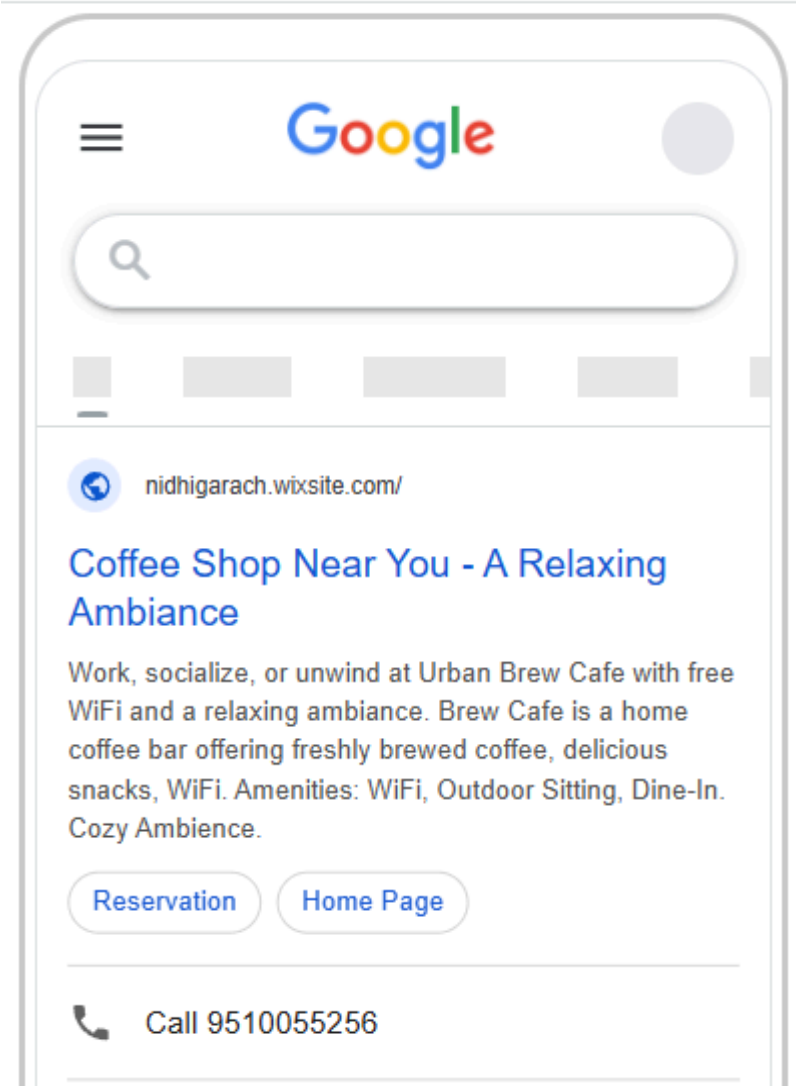
Headlines:



Description:



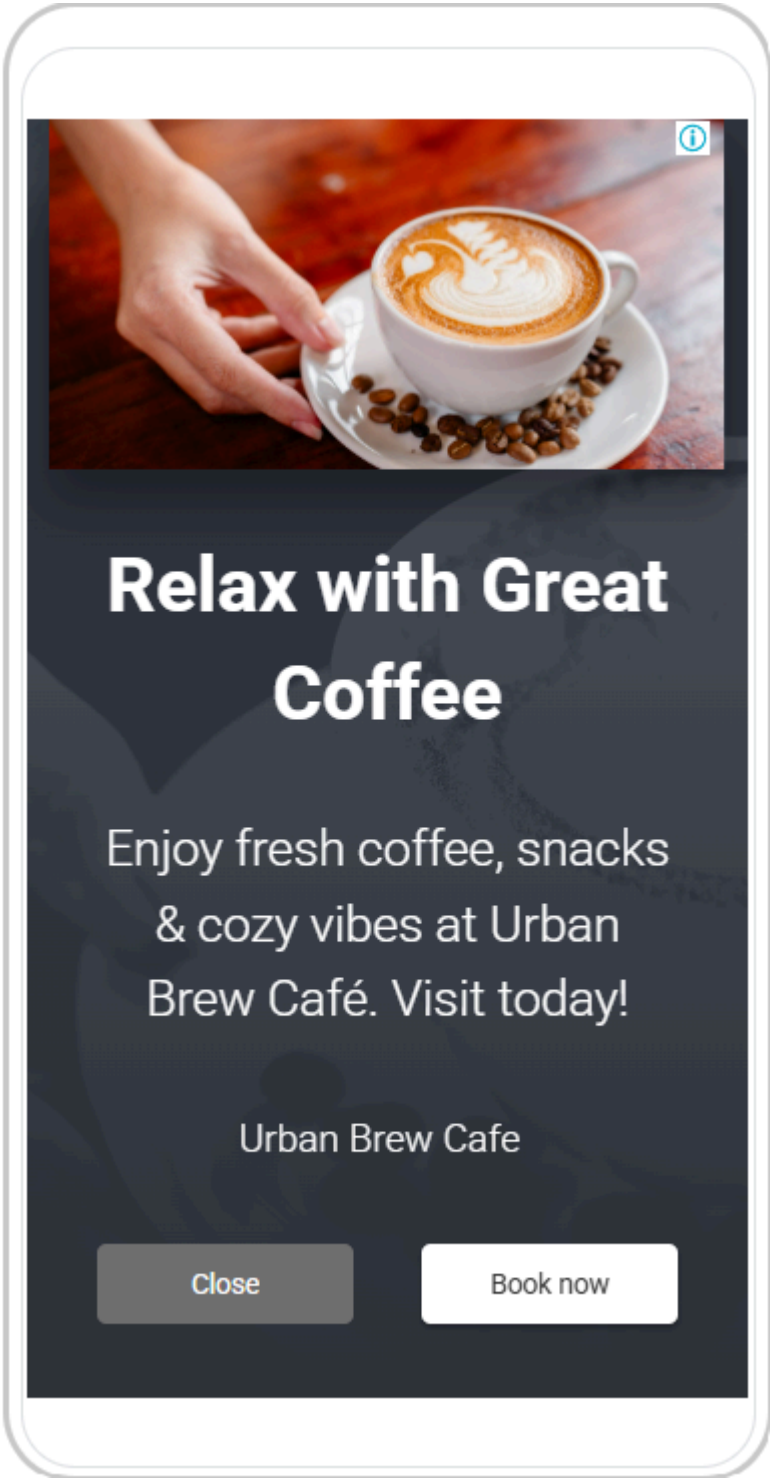
When Someone Searches “coffee shop near me”, It will give the results as:



The Headlines, the descriptions and the final Website URL.

5. 1 Display Ad Concept

The Display ad with CTA:



The display ad concept focuses on creating a warm and inviting café experience. The ad features a close-up image of a freshly brewed coffee cup, which attracts attention and highlights the product quality. The headline “Relax with Great Coffee” clearly communicates the main message, while the description emphasizes fresh coffee, snacks, and a

cozy atmosphere. The use of dark and soft tones in the background enhances readability and gives a premium feel. A clear call-to-action like “Book Now” encourages users to take action and visit the café.

6. Landing Page Suggestions

- The landing page should be visually appealing and easy to navigate. It should include high-quality images of the café and coffee to attract users. A clear menu section with pricing, contact details, and location should be provided. There should be a table booking option and a strong call-to-action like “Book Now” or “Visit Us.” Additionally, showcasing offers, customer reviews, and a cozy ambiance will help improve user engagement and increase conversions.
- Ads bring users to the website, while an effective landing page helps convert them into customers.

7. Expected Results (CTR / CPC / Leads)

- The expected results of this PPC campaign are based on industry averages and campaign setup.
- The Click Through Rate (CTR) is expected to be around 3% to 5%, depending on ad relevance and targeting. For example if 100 people see this ad and 5 click then its 5% CTR.
- Cost Per Click (CPC) may range between ₹10 to ₹20. I will pay maximum ₹20 for 1 click.
- And for the Leads, The campaign is expected to generate approximately 100 to 200 website visits or potential customers per month. These results may vary based on optimization and performance.

8. Optimization Strategy

- The optimization strategy focuses on improving campaign performance over time.
- Keyword performance will be regularly analyzed, and low-performing keywords will be removed or refined.
- Different headlines and descriptions will be tested (A/B testing) to identify the best-performing ad copy.
- Audience targeting will be optimized to reach more relevant users.

- Budget will be adjusted by increasing spend on high-performing ads and reducing it on low-performing ones.
- Continuous monitoring and improvement will help achieve better CTR, lower CPC, and higher conversions.
